

## A Strategic Partnership

Hope City Church has partnered with **Pathways powered by Rocky Mountain College (RMC)** to offer a training program for those ministering among the marginalized. Hope City Church understands marginalized ministry and they have crafted a certificate program, with the help of RMC, that tackles the leadership learning curve related to work with the marginalized community.

Hope City is dedicated to developing leaders for the challenging work of Urban Ministry and Discipleship locally and beyond and will train workers in a combination of classroom (and online) studies and real-world missional ministry, through our strategic partnership with RMC. Courses are open to anyone by registering through RMC.

**Pathways** is the distributed learning model of Rocky Mountain College, enabling students, professionals, and life-long learners to take advantage of programs and courses wherever they are. Rocky Mountain College:

- Is an accredited Bible college
- Accepts transfer credit
- Gives credit for experience
- Provides financial incentives
- Is eligible to receive student loans
